B) Executive Director’s Report.

Executive Director, Jamie Abbott, reported on the following:

❖ Last week he was part of a panel in Washington DC which was conducted in a seminar format. Participants were industry experts, consultants and FAA. The discussion included compatibility, airport noise, environmental issues and other topics. It was good exposure for Chicago Executive Airport.

❖ He met with the Tim Fitzgerald, Tower Manager, and Rob Mark regarding some possible solutions to noise. According to the manager not much can be done at the tower about the noise and procedures cannot be changed. The Tower Manager does understand the problem.

❖ The flyer that was printed a few years ago regarding awareness of noise sensitive communities near the airport will be reworded, printed and distributed again to FBOs and around the airport.
The announcement of applications being taken for membership on the noise committee has been sent to both communities to be published in their newsletters.

The Joint Workshop will take place on Wednesday, June 27th. More information will come out soon.

AAAE conference took place this week and was attended by industry experts. There was a GA breakoff session that was beneficial and discussed many important issues.

Director Cloud suggested a pull up banner of the flyer should be made for the FBOs to display. Director Katz said that he noticed the flyers in the FBOs.

Director Katz suggested that during the hours the tower is closed that FBOs should hand the flyer along with the fuel and service receipt.
