VI. Hearing and Reports

A) Treasurer’s Report

Jason Griffith gave the operations portion of the treasurer’s report. Last month there were 7,118 total flight operations which was down from August, the 12-month rolling total is 79,265 operations, 520,026 gallons of fuel sold which was down from August. Due to the early meeting date, September financial statements will be completed next week.

Director Katz said the audit has been completed and upon approval today, Prospect Heights will close their fiscal year. He has looked at all the assets of the Airport and will now review loans and debts. He will determine if the right interest rates are being paid, which loans should be paid off soon and will bring the facts to the Board soon. He noted a balloon loan for the RSA property is coming up in 2020 and he will look at options.

Director Kearns asked about the cash on hand that is earning low interest. He recommended looking into banks who would offer more interest. Director Katz would appreciate his input on this.

B) Executive Director’s Report.

Executive Director, Jamie Abbott, reported on the following:

➢ Tomorrow morning interviews begin for the RSIP consultant contract. There will be one interview on Thursday and three interviews on Friday. Recommendations will be made at the November meeting.

➢ The next Master Plan progress report will be made after the SIG meeting which has been scheduled for November 13th. Tomorrow the Master Plan website will go live which will have information for the public.

➢ U.S. Customs – 845 Designs will report on that later in this meeting.

➢ Jamie is going to Springfield on October 29th with Jason and George to talk about TIPS. This is an annual trip to talk about the 5-year capital plan that asks for funding for projects. After that meeting there will be a report.

➢ Jamie will be attending the AAAE Regional Airport Conference in Rosemont on October 22 and 23. Will report on the conference next month.

➢ NBAA – Each of the directors who are attending have received a packet that contains agendas with highlighted sessions and important topics.
Mike Haupt is launching his new book next month which the Airport is supporting.

Director Katz asked when the TIPS list is locked in after the meeting and commented that the list is shorter than it was in the past. Dan Pape, CMT, said that it is a back and forth discussion, that funding levels and the local share have both declined. Director Katz requested the list be sent to the Directors before it goes to the FAA. Dan and Jamie agreed that it will be made available for their comments. Feedback is welcome.

Director Kiefer would like detail on the age of items on the TIPS list. How many are old and how many are new items? Jamie will provide details to the Board of Directors.

Director Lang spoke about the sound insulation program. He commented that there is no buzz about it in the community even though this is the first time a project like this has been approved at this airport, currently there is not much interest and it’s a big thing. He would like better press releases, presentations to the Village of Wheeling and City of Prospect Heights meetings, more PR about it and community visits to get residents excited. Jamie said that there will be more PR when the project starts and agrees it is a big deal.

Director Saewert asked how the Master Plan will be reflected in TIPS and if it will be a detriment that the Master Plan is in phase 3 and this TIPS is in the first year of five year plan. Jamie will mark in TIPS what is related to the Master Plan. Dan Pape, CMT, explained that TIPS is a “living document,” things can be added and priorities changed. He spoke about how changes to TIPS work. Jamie added that TIPS is done every year. Director Saewert expressed concern about the funding levels being set at what the airport puts on the list. Dan said that there are often adjustments to projects based upon funding in both directions. Director Kearns spoke about last year’s TIPS list that contained 32 projects. Dan said more requests are submitted than could ever be funded.

Director Kiefer spoke about the funds for sound attenuation and wants to make sure enough money is budgeted. Jamie said adequate funds allocated in the budget.

Director Kearns noted that there were 16 noise complaints made from over a mile from the Airport and asked are we sure those are not aircraft from ORD? Rob said they are most likely not from ORD.

VII. New Business

A. 845 Design Presentation – Meghan Harte

Jamie introduced Meghan and said that this report is an update and no decision is expected to be made at tonight’s meeting.

Meghan spoke about the meeting at the end of September with Department of Homeland Security and Customs and Border Patrol. They discussed the facility location as it relates to the Master Plan. The decision was approved to wait until the Master Plan is complete. CBP was receptive to waiting and will work with the Airport. The facility layout is nearly approved. Meghan is waiting for additional comments and said that 4200 square feet is the final size of the facility.

Director Kiefer spoke about the site location options being vetted by CMT, said the price will increase if the project is delayed and doesn’t understand why the Airport is waiting until the Master Plan is complete. Jamie said that progress on the facility has not stopped and Meghan added that she will work as far forward on the design of the facility without a chosen building site.

Chairman Harris asked if there had been a conversation between CMT, 845 Design and Airport staff about each of the sites as it relates to the Master Plan and Jamie said that Hangar 4 location is the focus. George pointed out that Hangar 4 has to be demolished, an environmental study completed, after the second Master Plan SIG meeting the site will be chosen and after the third SIG meeting in late Spring demolition will begin. George said the delay will amount to four to six months and the facility will be done by the end of 2020.

Director Katz spoke about the funds spent for consulting costs and asked where they are in the budget and will the budget need to be increased? Jamie said the original project was for Customs/administration office/SRE and has been scaled back to a Customs facility only. Additional costs were incurred and he can provide an analysis. Director Katz is concerned about the budget.
